This account was opened during Come Test Drive Us. It is a good deposit account. However, one owner left the business so the account was closed and reopened in the new name and with the new signers. I point this out because we need to make sure that the 0 balance in the former account does not penalize Lien in iComp and that we take into account in the seasoning that the new account be blended in. This will credit him more accurately on the original account and ensure we do not double pay by treating the new account as a new account. Please let me know if this makes sense and we can accomplish this. Thanks. (p.s. it's a 4 th quarter seasoning issue; not 3rd).
